

MINORITY-OWNED / OWNER-LED

GRIT FRAMING

ROUGH FRAMING | STEEL STUD FRAMING

New company. Experienced leadership.

Built on 20+ years of construction leadership.

Grit Framing is a new, minority-owned company founded by Mario Hernandez. We bring a background in multifamily, podium, mixed-use, and affordable housing construction to rough framing and steel stud framing.

Our focus is clear scope, practical planning, and direct owner involvement. We understand the coordination and communication general contractors need from a framing partner.

PROJECT SPECIALTIES

Multifamily housing: Apartments and multi-unit residential construction.

Podium construction: Framing scopes above concrete podiums.

Affordable housing: Affordable and mixed-income developments.

Mixed-use & light commercial: Coordinated residential and commercial scopes.

Renovations & rehabilitation: Framing modifications for renovations and building improvements.

CORE SERVICES

Rough Framing: Wall, floor, and roof framing, including sheathing, blocking, backing, and related framing components.

Steel Stud Framing: Metal-stud framing coordinated with project plans, layout requirements, and adjacent trade scopes.

EXPERIENCE BEHIND GRIT FRAMING

Mario's prior roles include superintendent, project manager, estimator, and construction business owner. His background combines field supervision, scheduling, cost control, safety leadership, and trade coordination.
